Ref. ICS Financial Systems (ICSFS)

Guaranty Trust Bank (Liberia) Limited has been using ICS BANKS system since 2009 which was implemented in a centralized setup. The project was a success and was implemented in record time of 11 working days.

We have worked very closely with ICSFS and their local affiliate in the Middle East (ICSFS regional office in Jordan) to meet our requirements definition, end user testing, conversion, and training. The major factor in the success of our project is ICSFS excellent team of dedicated and qualified professionals that have vast experience in banking and its automation needs.

- ICS BANKS® software deployed include: (Centralization Server, Banks Web Linux, Thin Client Application & Centralization H.O Server)
- The application covers our needs at the Head Office and in five (5) branches fully linked on line.
- We are satisfied with the level of after sales support provided by ICSFS and have been receiving regular updates from ICSFS with additional enhancements. The highly parameterized nature of the system enables us to customize the products and services based on our requirement.

In view of above we can recommend ICS BANKS system to any bank looking for an integrated product covering most of the banking areas.

Yours Sincerely,

Chenkplen Cox
Systems & Network Administrator

Tunde Macaulay
Executive Director
