### **To ICS Financial Systems (ICSFS)**

We are pleased to have chosen ICS BANKS system to address our banking and leasing automation requirement. Ejara Leasing has been using ICS BANKS system since 2011 which was implemented in a Centralized setup. The project was a success and was implemented in a record time of three weeks.

We have worked very closely with ICSFS and their local affiliate in Middle East (ICSFS regional office in Jordan) to meet our requirements definition, end user testing, conversion, and training. The major factor in the success of our project is ICSFS'competent team of dedicated and qualified professionals that have vast experience in the financial sector and its automation needs.

- ICS BANKS® software deployment included finance lease module.)
- The application covers our needs in the head office.
- Furthermore, we are satisfied with the level of support provided by ICSFS during and after the implementation.
- We have been receiving new releases and regular updates from ICSFS with additional enhancements.
- Moreover, the system is highly parameterized giving us the capabilities and flexibilities to customize the products and services based on our requirement.
- Ejara Leasing has recently engaged ICSFS in a major project to migrate the Core Banking system ICS BANKS from distributed environment to centralized one using the latest version of ICS BANKS which is built using Oracle's latest technology.

In view of above we can recommend the ICS BANKS system.

Sincerely yours,

**Haethum Buttikhi**  
Chairman
